Stella Alpina 2020 on its Way – First Classic Regularity Rally after Lockdown

After three months of an absolute lockdown, it is finally possible to start racing again on the roads of passion. Car enthusiasts had shown great interest in the ongoing new edition. It represents a great opportunity for a restart and Stella Alpina has the honor of being the first regularity race taking place in the post Covid-19 era, of course with careful attention to the safety of participants, which will be welcomed with a smiling face, even if hidden by face masks, in compliance with safety rules.

Registrations for the motoring experience immersed in the most beautiful landscapes of the Dolomites, heritage of humanity, had to close early this year due to overbooking. Two weeks before the official dates were even confirmed, the intended limit of 40 guests was already greatly exceeded and the organisers of Scuderia Trentina and Canossa Events, decided to extend the admissions up to 70 participants, welcoming car enthusiasts willing to participate.

The new edition takes place from June 26th to 28th in the wonderful landscapes of Trentino and offers three days in the spirit of sport and adrenaline, but also entertainment and conviviality. For the ones who love challenges, the regularity rally will be exciting thanks to 46 timed trials and 6 speed average. Particularly appreciated this year has been the special non-competitive format, designed for all the ones that aboard of their own Ferrari or classic car want to enjoy the charm of the itinerary surrounded by the majesty of the Dolomites, without any concern about pressure tubes, but still with the desire of taking again part to exciting events for enjoying the wind in your hair aboard of classic and modern jewels.

The experience took off from Trento Caproni Airport on Friday June 26th for the first leg, which will lead the participants through the Brenta Dolomites and will then reach Madonna di Campiglio, pearl of the Dolomites.

On Saturday, it will be possible to be surrounded by the most unspoiled nature while driving challenging and evocative alpine passes, as Passo della Mendola or Passo Lavazè. The day will end with a high-altitude evening at Rifugio Boch by enjoy the sunset over the mountain peaks.

On Sunday, the participants will ride towards the charming Tenno Lake and, after passing through Riva del Garda, the arrival is scheduled in Trento for the final awarding taking place in the beautiful frame of Villa Bortolazzi all'Acquaviva, situated in the suggestive Valle all'Adige.

Stella Alpina and Social Engagement

In this particular period of social and medical emergency, Scuderia Trentina and Canossa Events have decided to pay particular attention to people in need. For this reason, this year Stella Alpina supports Fondazione Trentina per l'Autismo Onlus (Trentino Autism Foundation) for contributing to the valuable projects of educational solidarity carried out in the local territory. Fondazione Trentina per l'Autismo Onlus, through Casa Sebastiano, plays a central role in providing hospitality, educational and medical services with the aim of creating learning and inspiring development activities. The organizing Team will donate to the Foundation a good portion of the budget normally reserved for gifts, with the hope of having through this choice the approval and support of all the participants.
